Yadadri Bhuvanagiri	36 to 40	36 to 40	36 to 40	36 to 40

In this regard, the following Do's and Don'ts are issued for the citizens of Telangana.

Do's

- **Stay hydrated:**
 - Drink sufficient water as and when possible, even if you are not thirsty. Use Oral Rehydration Solution (ORS) and consume the homemade drinks like lemon water, butter milk / fruit juices / salt – sugar solution (Homemade ORS : One liter of drinking water, six level teaspoons of sugar and half level tea spoon of salt stir well until all components are dissolved).
 - Carry water during the travelling time
 - Eat seasonal fruits and vegetables with high water content like water melon, musk melon, oranges, grapes, pineapples, cucumbers or any other locally available fruits and vegetables.
- **Stay covered:**
 - Wear thin loose cotton garments preferably the light colored ones.
 - Cover your head: By using the umbrella / hat / cap/ towel or any other traditional head gears during exposure to the direct sunlight.
 - Wear shoes or chappals while going out in the sun.
- **Stay indoors as much as possible:**
 - In the well-ventilated and the cool premises
 - Keep the windows and the curtains closed during the day, especially on the sunny side of your house. Open them up at night to let the cool air in.
 - Limit your outdoor activity to the cooler times of the day i.e., morning and evening
 - Open the doors and the windows to ventilate the cooking area adequately
- **Stay alert:**
 - Listen to the radio; watch TV and read the Newspaper for local weather news. Get the latest update of weather on the India Meteorological Department (IMD) website at <https://mausam.imd.gov.in/>

Don'ts

- Avoid going out in the sun, especially between 12:00 noon and 03:00 pm
- Avoid the strenuous activities in the afternoon.
- Do not go out barefoot
- Avoid cooking during the peak hours.
- Avoid consuming alcohol, tea, coffee and carbonated soft drinks or drinks with large amount of sugar as these actually lead to loss of more body-fluid or may cause stomach cramps
- Avoid high-protein, salty, spicy and oily food. Do not eat stale food.

Heat wave Danger signs-

- Nausea and vomiting
- Hot, red and dry skin
- Body temperature $\geq 40^{\circ}\text{C}$ or 104°F
- Throbbing headache
- Anxiety, Dizziness and fainting
- Muscle weakness or cramps
- Rapid heart beat
- Rapid, shallow breathing
- Altered mental sensorium with disorientation: confusion, agitation, irritability, ataxia, seizure and coma

Seek immediate medical attention from the nearby Government Health facilities if any of the above features are observed:

As a part of precautionary measures, the Government has made elaborate arrangements by providing the Special beds, I.V fluids, essential medicines at all the public health facilities and ORS sachets are made available with ANMs / ASHAs / Anganwadi workers to meet any exigencies.
